

Gorilla Highlands News is Here, At Last

Years in the making, the newsletter to keep the **Gorilla Highlands initiative** properly informed is finally ready. In our first ever partner survey (**you really should read the report!**) you told us it should be quarterly, so you can expect the next edition in September 2018.

Assisted by the French Institute of Bukavu and Goma, Gorilla Highlands News will get a French language version soon. We want our Congolese friends to still feel included, even though the latest events force us to postpone putting the DRC in the Pocket Guide.

In light of that, we need to end this intro with a wish for peace...

Gorilla Highlands Silverchef Winner 2018

Our initiative's signature event had Congolese participants for the very first time, however, the prize went to a Rwandan chef!
